**** Active or recent (within 5 years) “Q” clearance required **** Rate of pay:
\$20+/hr.

Immediate part-time or full-time work is available.

**** Training to work as an Access Control Specialist (Security Escort) will be provided****

Job Description:

Responsible to escort un-cleared visitors in designated cleared security areas at a national laboratory in Los

Alamos: Identify access requirements for the area which will be entered, obtain an active security plan from the client for the area which is to be accessed, verify the identity of the individuals which will be monitored and ensure they have the required credentials for entering the area. Brief the individuals being monitored on prohibited and controlled articles and other safety and security requirements. Complete the logging system requirements. Escort the approved individuals to the approved work area. Notify the on-site Physical Security Officer in emergency situations, such as fire or presence of unauthorized persons. When work in the area commences, observe the monitored person(s), to ensure proper procedures and policies are being followed.

Should you observe non-compliance report the incident immediately to the appropriate government on-site authority. Escort or drive a motor vehicle to transport individuals to specified locations. Warn persons of rule infractions or violations, and report the incident to the appropriate on-site authority.
