

OHKAY OWINGEH
Planning Department

October 29, 2020

TO: North Yucca Road/Sesame Street Residents
FROM: Public Works Division – Planning Department
SUBJECT: Sewer Rehabilitation Project

Dear Tribal Residents:

Ohkay Owingeh is completing a much-needed sewer rehabilitation project in your residential area. The work includes lining sewer lines, and removal of debris and roots in the system. This work is critical for your sewer system and will prevent future back-ups and malfunctions in your home.

Please be advised that TLC Plumbing has been contracted to complete the work and has been authorized to work in your residential areas.

Work will begin on November 2, 2020 and will go through November 13, 2020. TLC will begin work at approximately 9:00am daily.

There will be a minor interruption in your service; your service should not be used for up to a two-hour period so that TLC can complete the work at your residence. TLC will be knocking on your door to give you a 2-hour advance notice prior to your service being shut down.

You will be able to flush your toilet 1-to-2 times during this shut down, but will be asked not to do laundry, dishes, or anything else that results in several gallons of wastewater.

Your cooperation is much appreciated. If you have any questions or concerns please contact the Ohkay Owingeh Planning Department at 505-852-4400.
